Eligibility

- Clients aged 0 to 18 years, living on the island of Montreal.
- Children with one or multiple significant and persisting physical disabilities (motor, hearing, vision, language or speech).
- Children or teenagers who need nursing care that can be delegated with a focus on activities of daily living and supervision with regard to cognitive and physical losses.
- Users who need round-the-clock intensive care on a daily basis.
- Users who need social protection without any particular supervision.
- Users who need supervision during the night.

Note: Respite requests may be considered in exceptional cases concerning young adults aged 18 to 21 years in high school.

Ineligibility

- Children over the age of 6 years with a dual disability (a physical disability along with a moderate or severe developmental disability). These children are referred to an organization specialized in developmental disabilities.
- Children who have a drug or alcohol dependency, or who have a severe behavioural problem requiring psychiatric services or residential services available in youth centres.
- Users who need nursing care that cannot be delegated. These children are referred to an institutional residence.
